CPR-O v3 2023

# Specifications

- 1 Metal hinges, bolted-in double wall top rim.
- 2 One-piece polyethylene overlapping lid.
- 3 10-gage steel bolted-on side pockets for superior strength.
- 4 10-gage steel wear skid.
- 5 10-gage steel belt for maximum strength. (available on CPR-0 models only)
- 6 Polyethylene access lid 24" x 24"

Made from superior quality, 100% virgin resin and weighing 1/3 less than a samesized steel container, Duraplast's polyethylene front-load organic container is one of the most durable and versatile containers on the market.

An electro-coated steel belt circling the body ensures rigidity and stability during lifting and dumping actions. Steel skids at the bottom of the container protect it from wear and tear on rough surfaces.

This 2 to 4 cubic yard container is built for heavy handling!

## Wide range of dumpers

Through the wall dumper

Mobile dumper

# 2 possible types of installations...

## Lateral feeding

## Rear feeding

## Back door management!

- ▶ Increase productivity
- ▶ Time economy
- ▶ Lower risk of in-house theft
- ▶ Safer
  - ▶ Lower risk of falls in winter
  - ▶ Limited access to container

Ideal for grocery stores, supermarkets, restaurants, hotels, megastores and many more.
